Lesson Ideas for “Hobby Detail Detectives”

Prepare

Allow 6-8 minutes. Review run, read and dance using the whole pictures on the right. Explain that the pictures on the left show only part of the same scenes. Demonstrate matching through pointing before children draw lines.

Find each scene

Look at one detail on the left and find the whole picture that contains it on the right. Compare visible shapes and positions. Children connect the small dot beside the detail to the dot beside the whole picture. Each detail has one match.

Name and check

Point to each completed match and say its action word. A partner checks the shared detail and repeats the word. No explanation of the body parts, book or musical notes is required. The teacher supplies the action meaning if needed.

Answer key

Left details, top to bottom: running legs; open book and hands; dancing upper body.
Whole pictures on the right, top to bottom: dance, run, read.
Match top left to middle right; middle left to bottom right; bottom left to top right.

Speaking support

Target vocabulary: run, read, dance.
Use single action words. Model each word while indicating its full scene. Printed instructions are for adult-led demonstration, not independent reading. Do not require present continuous sentences for this worksheet.

Another way

Point to both matching pictures without drawing lines. Cover one pair to begin with two choices. Let an adult draw the line after the child points. Keep the whole scenes visible throughout; the task is visual matching, not hidden-picture memory.
